| | Owner | Place |
| | Diadyma (PPP) | Kozani, Greece |

The project involves the design of an integrated waste management system for the Western Macedonia Region, able to accept 120,000 tonnes of municipal solid waste (MSW) per year, including a waste management plant, a waste transfer station and a landfill. The waste management plant includes a Mechanical Treatment Facility, where recyclable materials are recovered and a Mechanical Biological Treatment Facility (MBT), where the organic fraction of waste is subjected to anaerobic digestion.
