Integrated Waste Management System of Western Macedonia

Zeit-Studie	Budget (€)	Arbeitgeber
2015-2016	49.00	
	Besitzer	Position
	Diadyma (PPP)	Kozani, Greece

The project involves the design of an integrated waste management system for the Western Macedonia Region, able to accept 120,000 tonnes of municipal solid waste (MSW) per year, including a waste management plant, a waste transfer station and a landfill. The waste management plant includes a Mechanical Treatment Facility, where recyclable materials are recovered and a Mechanical Biological Treatment Facility (MBT), where the organic fraction of waste is subjected to anaerobic digestion.
