The Mall Athens-Steel Roof

Temps d'étude

2003-2004

Budget (€)

4,000,000.00

Employeur

J/V ERGOTEX LTD-S.Tsagkaratos

Propriétaire

LAMDA
DEVELOPMENT

Position

Maroussi Athens

Check and modifications to the structural design of the Athens Mall steel roof. The initial design was executed by David Dexter Associates UK. The key issues were the adaptation of the steel structure to the irregular supports on columns positions and the static and seismic design of the structure, that led to changes both in geometry and sections of the steel structure. In addition our company supervised the construction.
